## OPERATION BASIC U.S. POLICE SNIPER 2014

### Basic U.S. Police Sniper Course 2014

REALITY BASED LUXEBURG PERSONAL PROTECTION will run the first basic Police Sniper Training in Europe

**This is NOT a day at the class room – you will train as you fight –**

“From a place you will not see – comes a sound you will not hear”

Our course is based on Police SWAT Sniper tactics and techniques – and although we utilize many fundamentals of military long-range target interdiction – the emphasis is the intermediate range (100-500 meters) operations that the majority of Police Sniper shots are taken at.

This is a full bore 3 day, Police Standard professional course of instruction. There are others who offer ‘fun courses’ in Europe....we are NOT them!

Precision, cold bore head shots - as required for hostage rescue operations - is the standard for this course.

This is true if it's at high noon on a sunny day or during low-light shooting operations being conducted in the evening of day 2 of the course.

You're Classroom - Snow, heat, cold, rain, blazing sun, black of night, wind and hail....this is our classroom. Your ‘piece of chalk’ is a precision tactical rifle equipped with powerful optics....your ‘blackboard’ is a target 300 meters away....or more!

Estimating and making that one single precision shot – no matter at sea level on a sunny day – or at 4,000 meters elevation in a blowing snowstorm – this is what you must learn to do....this is what you WILL learn to do - at the Precision Rifle/Police Sniper Training Course.

Although a very good amount of live fire is done, this is an absolute ‘quality not quantity’ shooting course where each and every round counts.

Most Police SWAT Sniper missions come down to a single precision round placed into a target area no more than 5 cm's in size. During your time with us on the range this is also your training objective. This course teaches, and is focused on safety, equipment selection and maintenance, practical ballistics, range and wind computation (in the field) and the practical tactics and techniques needed to seek out and engage your target – both individually and as a two man team.

Moving targets, firing in a chemical environment (masked), barrier defeating shot placement, high/low angle shooting, Sniper Team movement & coordinated fire, vehicle based platforms and wind reading are several of the skills that we willing and able to teach you!

Students start each day on the range with a cold bore confirmation shot. Precision zeroing is

# REALITY BASED LUXEMBURG PERSONAL PROTECTION

---

stressed along with the ability to adjust (range estimation) your precision shots into targets at every range from 50-300 meters.

Live fire shooting exercises focusing on timed and stress shooting are also a part of the student's training.

Hostage Rescue and shoot/don't shoot targets will be the primary focus of your work here.

The use of camouflage in both urban and rural setting is looked at and discussed – with time set aside to discuss your particular needs in your area of the.

Selection, proper care and use of the combined weapon/scope/ammunition system is stressed as well as making sure you know both the abilities and limitations of your particular system.

One especially interesting and misunderstood aspect of precision shooting – environmental conditions associated with temperature, humidity and light – is presented in a practical and easily understood manner.

As with all of our courses, the student is looked at as a professional, and is therefore treated with the respect due to them as a fellow Warrior!

The awarding of the Official American Police Sniper Badge, Shoulder Tab & Certificate is the outward symbols of your accomplishment....but the knowledge that you are capable, confident and able to truly take that 'One Shot-One Kill' is what you will carry inside for the rest of your life.

**NOTE – This is NOT a course to teach you to shoot, this is a course to teach you to shoot better!**  
*Students must have a fundamental knowledge of rifle use before attending this course.*

So step up to the challenge of improving or adding to your combat skill set – for both Military and Police shooters - as a Precision Tactical Police Marksman.

Each block of instruction has been thoughtfully developed using experiences from intense international Military combat operations and complex civilian Police situations.

Over the last 27 years your primary instructor has applied all of these universal Assault Rifle tactics & techniques in numerous successful combat operations in Iraq, Bosnia, Afghanistan and Police operations in the United States.

**In reference to your own qualification you may gain the .**

Operation Basic U.S. Police Sniper 2014 will take place in a time frame of 3 days only

**Term:** October 24<sup>th</sup>-26<sup>th</sup> included
