

Challenging Emergency Environmental Responder **(CEER Basic)**

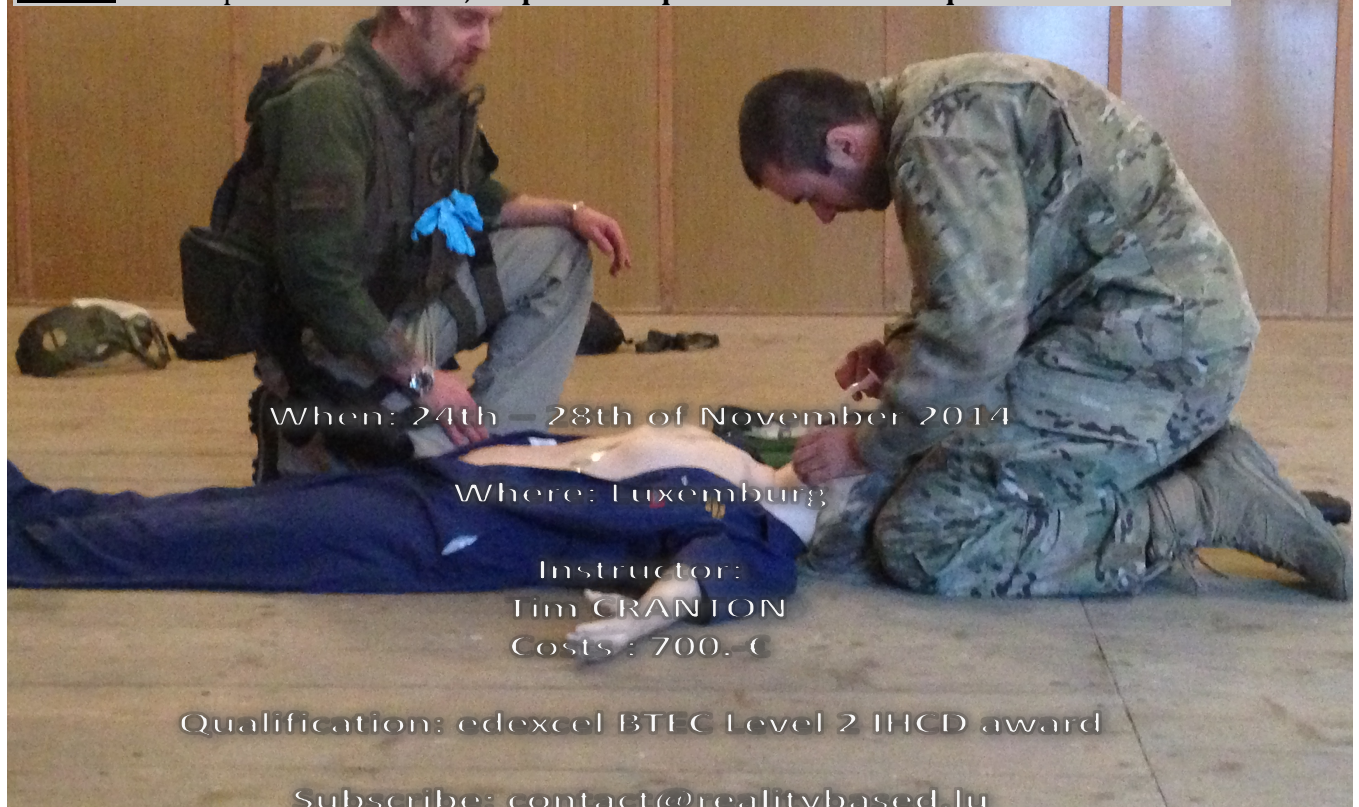

First time in Luxembourg.

Get trained and certified as a CEER responder with our instructor's real life experience. Tim has a military background as a combat medic and working as a civilian at the London fire department.

The course structure is primarily based to provide the student with the fundamental skills required to manage a casualty in a remote/challenging environment. During the 5 days the students will learn the following topics:

- ⚔ **Scene Safety and mechanism of injury**
- ⚔ **Airway Management**
- ⚔ **Cardio-Pulmonary resuscitation**
- ⚔ **Defibrillation and administration of oxygen**
- ⚔ **Breathing assessment and support**
- ⚔ **Bleeding and Haemorrhage control**
- ⚔ **Management of burns**
- ⚔ **Extremity Trauma management**
- ⚔ **Basic Head Injury management**
- ⚔ **Medical emergencies**
- ... **and much more**

This course is underpinned with the First Person on Scene Basic qualification and provides the students with an edexcel BTEC Level 2 IHCD award. The award also meets the Security Industry Authority first aid requirements. It can be provided internationally in **English** and **French** and is open to all students; **no previous qualifications are required.**

When: 24th – 28th of November 2014
